Extended Closure of SIGA Casinos

As you may know, the Provincial Government had announced that all casinos will remain closed; this restriction is in place until February 19th, 2021, as per the most recent public health order.

This is to confirm that your leave status will remain the same. If you are being paid under the wage subsidy program, you will remain on wage subsidy until further notice. If you were placed on public health emergency leave without pay, you will remain on public health emergency leave.

We are doing our best to keep these measures temporary and it will be our goal to get our operations back up and operating as soon as possible. As more information becomes available we will communicate to our employees at that time.

SIGA Resources

Please continue to find the latest information and resources at the [Government of Saskatchewan's website](#), and additional resources and continuing information on both our external website's private communications portal and private Facebook group.
