

**January 12, 2021**

### **Extended Closure of SIGA Casinos**

To comply with the extended public health restrictions, all SIGA Casinos will remain closed beyond January 15, 2021. This restriction will remain in place until **January 29, 2021**, as per most recent public health order.

We regret the impact this situation will have on you, our team members, as well as our guests and communities. We are working to minimize any hardships created for you and our beneficiaries during our temporary closures.

Employees will remain on either paid leave, under the Canadian Emergency Wage Subsidy Program or on an unpaid Public Health Emergency Leave at which employees can access other federal benefit programs such as Employment Insurance or the Canada Recovery Benefit.

We are doing our best to keep these measures temporary and it will be our goal to get our operations back up and operating as soon as possible. As more information becomes available we will communicate to our employees at that time.

#### **SIGA Resources**

Please continue to find the latest information and resources at the [Government of Saskatchewan's website](#), and additional resources and continuing information on both our external website's private communications portal and private Facebook group.

#### ***External SIGA Private Communications Website***

Important SIGA updates and employee information can be found by logging onto the External Employee Portal. Click the link below and enter in the following log-in information to access:
